

Origami for Beginners

Welcome to the fun world of Origami: the art of paper folding! With Origami playtime, you'll learn to make many fun as well as innovative objects. Even if you have never folded paper before, you'll find the objects in **Origami for Beginners** fun and easy to make.

Origami is believed to have originated in China, but the craft developed most fully in Japan. For centuries, Japanese origami was closely associated with traditional ceremonies, but over time the craft became a popular family pastime.

While Origami is an ideal activity for children, many adults have also discovered that paper folding is a creative, challenging, and relaxing hobby. Some paper folders have created designs that are widely recognized as valuable works of art.

We at **STEPPING STONES International School** are pleased to introduce this valuable art to your children through our Origami for Beginners Workshop over the Christmas holidays.

Resource Person: **Suparnah**
Participants: **12**
Age: **8-101 years**
Fees: **Rs. 200/- for three sessions**
Date: **Thursday, Friday, Saturday,
December 26, 27, 28.**
Time: **4:00 - 5:00 p.m.**
Venue: **Stepping Stones International School
#392, 13th Main, 2nd Cross, 3rd Block,
Koramangala, Bangalore – 560034.**
Registration: **Call 5501333**

* We'll provide your child with unforgettable memories when she celebrates her birthday along with friends in a unique way at any of our creative workshops. *

* If you wish to organize, you can't re-sell into Advanced Origami by the end of the first session. *
